Hyundai HY3000SEi

The Hyundai HY3000SEi inverter generator is the best selling and most popular out of all the inverters in the leisure generator range. At merely 1kg heavier than the HY2000Si and SEi versions, it provides up to 0.6kW more power, making it the ultimate power supply for leisure purposes. It's higher output, improved electronics, new bodywork, remote start capability and impressive performance producing reliable power when off grid on camping sites and pitches, with the benefit of being able to start the generator on the key and even remotely from up to 20 metres.
